

Every Word He Didn't Say

Verse I

Sometimes words are not enough
To say exactly what we feel
So we listen with our hearts
To hear something just as real

When Jesus went to Calvary
Placed His love on display
My heart heard
Every word He didn't say

Chorus

Every step He took going up that hill
Every thorn that touched his brow
Every drop of blood He spilled that day
They still speak to me now

What he did spoke so loudly
That words would just get in the way
My heart heard
Every word he didn't say

Verse II

I heard Him say He loved me
Didn't have to use the words
He just showed me when He laid
His precious life down for the world

I could take a million books
From the authors of all time
Jesus did more
Than all of them combined

Bridge

Love so amazing
Grace so divine
Still calls to us today
If we only take the time
To listen with our hearts
And let His still small voice break through.
