

## **What Would It Take**

© 2007 Wayne Carroll (BMI) & Simeon Amburgey (BMI)

### **Verse 1**

There's a church on every corner in every town it seems  
we live as if they don't exist when we're back to our routines  
and the days fly by like hours, the years rush past like days  
but there in your quiet moments, can you hear His voice today

### **Chorus**

What would it take to prove how much I love you  
you live like you've forgotten the sacrifice I made  
as the years just keep on passing, as my crucifixion fades  
if what I gave to you was not enough  
tell me please, what would it take

### **Verse 2**

When I slow down for a moment, my blessings I can see  
in spite of how I treated You, You just kept on loving me  
I'd like to start all over and live a better way  
so let my life become the thank-you for Your crucifixion day

### **Chorus 2**

Oh, what would it take to show You just how much I love You  
there's no way I can repay You for the sacrifice You gave  
and through all the passing ages I will ever sing your praise  
for through the eyes of Calvary I see, all You ever really wanted was just me

### **Coda**

With each day I'll live to show Your love  
I'll slow down so there's time enough  
and find others who were searching just like me  
and help them take another look at Calvary  
for all it takes is one good look at Calvary
