

Spirits Rising

© 2010 Wayne Carroll & Simeon Amburgey

Verse 1

The birds just seem to fly
So gentle and so free
And in my heart I pray
Their wings could come and carry me away

To that far off somewhere place
That goes beyond the pain of fears
Where peace and comfort are nearby
Where I can leave behind my tears

Verse 2

I see you on your journey there
With your picture still unclear
Searching for the answers to
All the questions of your years

Just take my hand and I will try
To help you on your way
Together we can stand
Together unafraid

Chorus

Lifting higher we will fly
To that place beyond the sky
Where there are no tears or pain
Where we can believe again

Though our troubles try they fail
To keep our feet here on the ground
It won't be long until we're there
Our spirits rising

Verse 3

Looking down from up above
We see how things should really be
Just take the time to share your love
So that your someone could be free

Reach out a hand
To help the one who has fallen on their way
Lifting them to promise that
There will be a brighter day
